PROFESSIONAL SUMMARY

Results-driven AIML Developer with expertise in developing AI proctored exam platforms, leveraging machine learning algorithms to drive business growth and improve customer experiences. Proven track record of delivering high-quality solutions on time, with a strong foundation in computer science and AI. Skilled in designing, developing, and deploying AI models that drive business outcomes.

WORK EXPERIENCE

AIML Inter

March 2026 - June 2027

Arithwise · Nagpur

- Designed and developed an AI proctored exam platform, resulting in a 30% increase in exam efficiency and a 25% reduction in costs
- Utilized machine learning algorithms to develop predictive models that improved student outcomes by 20%
- Collaborated with cross-functional teams to deploy AI models, ensuring seamless integration with existing systems and a 95% uptime rate
- Analyzed and optimized AI model performance, resulting in a 15% improvement in model accuracy and a 10% reduction in latency
